HYDRAULIC PUMP (ENGINE DRIVEN) - RATED PRESSURE: 68.5 MPA

پمپ هیدرولیکی بنزینی تک شلنگه ۷۰۰ بار
با ریموت کنترل سیمی

Code	Specification	Size (mm)	Weight (kg)	Features	Remarks	Accessories
HPE-1A	<p>Oil delivery: 2.6 liter / min at low pressure 0.5 liter / min at high pressure</p> <p>Engine: Air cooled 4 cycle gasoline engine 1.0 kw (1.4 ps) / 3,600 rpm , leadfree gasoline</p> <p>Reservoir capacity: 2.2 liter</p>	470×320 ×390	30	<p>The HPE-1A single acting gasoline engine driven hydraulic pump is the most sophisticated engine pump on today's market. It builds pressure to 68.5 Mpa automatically and returns engine RPM to an idle.</p> <p>Wired remote control allows operator complete control. Oil volume is large enough to operate a 60 ton class single acting compression head.</p>	<p>Hydraulic hose sold separately.</p> <ul style="list-style-type: none"> Remote control operation Pole mounting bracket as a standard accessory Visual oil level External air vent and oil level Compact design Dependable Fuji Heavy's engine For single acting tools 	Remote control switch, Spark plug wrench
