## HYDRAULIC PUMP (MOTOR DRIVEN) - RATED PRESSURE: 68.5 MPA

الکترو پمپ هیدرولیکی ۲۲۰ ولت ۷۰۰ بار با ریموت کنترل

2.6 liter / min at low pressure 0.6 liter / min at high pressure  Input: Single phase 50 / 60 Hz 120 V or 230 V  Reservoir capacity: 3 liter   **420  controlled, single acting, 68.5 Mpa, electric pump. The two button hand held remote control allows the operator to advance, hold or retract at any time. When 68.5 Mpa is reached, the pump will automatically shut off and hold the pressure until the operator pushes the release button to retract the tool.  There is an auto cycle switch that allows the operator to push the advance button once and the pump automatically advances, runs to 68.5 MPA, and releases. This feature is convenient where operation is	08.5 MPA							ب ريسوت حسرن
2.6 liter / min at low pressure 0.6 liter / min at high pressure  Input: Single phase 50 / 60 Hz 120 V or 230 V 550 W motor  Reservoir capacity: 3 liter   x420  controlled, single acting, 68.5 Mpa, electric pump. The two button hand held remote control allows the operator to advance, hold or retract at any time. When 68.5 Mpa is reached, the pump will automatically shut off and hold the pressure until the operator pushes the release button to retract the tool.
